I am Headquarters for the Genuine GROUND CHERRY, (or straw-
berry tomato) seed. This remarkable husk tomato, is unequalled for canning,
preserving, pies, &c. They are handsome, - of a bright golden color, enormously
productive, and will keep (if left in the husk) till Mid-Winter. They should be
in every garden, and are indispensable where fruit is scarce, or likely to fail.

Popping Corn, Cook's Improved Egyptian. This splendid corn pops
nicely, is very productive, 3 to 6 ears on a stalk. I have raised two and a half
bushels of ears on 50 hills. It is nice for feeding young chickens. Boys can get a
nice income growing this corn to sell. It has sold readily at wholesale the past
three years, at $1.50, per bushel of ears.

Price 10 cents a packet, 3 packets, 25 cts, per quart, 70 cents, postpaid.

They will yield at least 1000 bushels per acre, with good care and cultivation. 1 lb. 50 cents. 3 lbs. $1.25. by mail postpaid.

ANIMATED OATS. I am now able to offer a fine crop of these curious productions, that have been properly called vegetable ACROBATS. They will supply a large fund of amusement, — after which they may be planted, and will grow readily, if directions for planting are closely followed. These oats are quite ornamental when growing, and make one of the best and handsomest dried grasses. Taken altogether, they are certainly one of the greatest curiosities of the Vegetable World. I will mail 30 select specimens — with full directions for their performing, — also directions for planting: — all packed in a strong wooden box, for 25 cents. 3 boxes 60 cents.
